Sudarshan Doke

SOC Analyst | B. Tech CSE

sidoke.personal@gmail.com LinkedIn Portfolio 7620887362 Baner, Pune (411045)

Career Objective

Driven and dedicated recent graduate with a keen interest in cybersecurity and networking. Eager to apply theoretical knowledge gained through academic coursework. Seeking an entry-level position where I can leverage my skills, passion for threat detection, and commitment to maintaining robust security measures to protect organizational assets. I am excited about the opportunity to work with a team of talented individuals and learn from experienced professionals in the industry.

Education

D. Y. Patil College of Engineering and Technology, Kolhapur June 2020 – Nov 2023
Bachelor of Engineering (BE) Computer Science | Percentage: 73.13 | **(Result)**

Dr. D. Y. Patil Polytechnic, Kolhapur July 2018 – Oct 2020
Diploma in Computer Engineering | Percentage: 81.66 | **(Result)**

P. V. P. College of Arts, Commerce & Science, Loni, A. Nagar June 2016 – June 2018
12th Grade (HSC) | Percentage: 55.08 | **(Result)**

Shri Shivaji Vidyaniketan, (Rahuri Public School), Rahuri, A. Nagar Batch- 2016
10th Grade (SSC - Matriculation) | Percentage: 77.20 | **(Result)**

Work Experience

- **SOC Analyst Intern (Offer Letter)**
  Dronashield Cyber Infosec Pvt. Ltd.
  Duration: March 2025 – June 2025 **| Location:** Pune, India.
- Gained hands-on experience with Security Information and Event Management (SIEM) tools including IBM QRadar and Splunk.
- Monitored network traffic, system logs, and user activity to detect suspicious patterns and potential threats.
- Created and fine-tuned **custom alert rules** for proactive threat detection.
- Worked closely with the SOC team to analyze triggered alerts and escalate incidents as per standard operating procedures (SOPs).

Technical Skills

- **CEH | v13 certified (Certificate)**

- Cyber kill chain methodology, Kerberos authentication, Windows logon types.
- IDS & types of IDS, IPS, Honeypot, DMZ, WAF, MITRE ATT&CK framework, OWASP.
- Cyber-attacks: DoS/DDoS attack, Phishing attack, Brute force attack, SQL injection attack, XSS, etc.

- **Networking concepts (CCNA)**

- OSI model, TCP/IP model, DNS, network topologies.
- Internetworking devices: Hub, NIC, switch, router, gateway, etc.
- Protocols: ARP, SMTP, SNMP, FTP, HTTP/s, OSPF, DHCP, ICMP, GRE, etc.
- TCP 3-Way Handshake, Tunnelling, Firewall & types, VPN, Subnetting, NAT, port scanning, DNS spoofing.

- **CompTIA Network+**
- **Tools:** Nmap, IBM Qradar, Splunk, MS Defender, MS Office, GitHub.
- **Software:** Android Studio, Unity Engine, Blender, Visual Studio, Arduino.
- **Programming Languages:** C, C++, C#, Java, Python, SQL.
- **Database:** Oracle, MySQL, Firebase.
- **Web:** HTML, CSS, XML, JavaScript.

Interpersonal Skills

- **Transferable skills :** Teamwork, Collaboration, Problem solving, Time management, Emotional intelligence.
- **Personal attitude:** Independent, Compassion, Resilient, Patience, Assertiveness.

Projects

- **Zombie Slayer** (3D Game Development) 10 Oct 2021 - 28 Feb 2022

  Mentor: Mrs. Priti Ramttekar **| Team Size:** 5 **| Role:** Team lead

The 3D Game Development project is a venture into high-quality, AAA-grade gaming, characterized by stunning graphics and immersive gameplay. The project encompasses a diverse array of game mechanics, showcasing expertise in various aspects of game development. Notable features include a sophisticated Zombie AI, a dynamic Gun system, an efficient Sounds manager, and a responsive Character controller.

As the Project Lead, I played a multifaceted role, overseeing the project's development from inception to completion. My responsibilities included leading the team, contributing to the programming aspects using C#, and actively participating in the game design process.

Features: High-Quality Graphics, Zombie AI, Gun System, Character Controller, Sounds Manager.

- **Aptister** (2D Quiz Game) 18 June 2023 - 20 Oct 2023

  Mentor: Prof. K. T. Mane **| Team Size:** 3 **| Role:** Team lead

The 2D Quiz Game is an engaging and educational college project that showcases a dynamic and interactive learning experience. Designed for multiple students, the game incorporates features to enhance user engagement, including Firebase integration for score storage, administrative controls for quiz content management, and a visually appealing user interface (UI).

This 2D Quiz Game project not only serves as a practical application of programming skills but also demonstrates a commitment to creating an interactive and educational tool that benefits multiple students and enhances the learning experience.

Features: Student management system, Online quiz, Admin interface, Real-time sync, Firebase.

- **Smart Home** (Home automation) 14 Aug 2020 - 30 Dec 2020

  Mentor: Prof. Minakshi Patil **| Team Size:** 4 **| Role:** Team lead

Smart Home Automation project is a cutting-edge home automation system designed for seamless operation across multiple devices. It utilizes real-time synchronization through Google's Firebase API, ensuring a responsive and interconnected experience. The system is equipped with options for both voice command and manual control, offering users flexibility in managing their smart home functionalities.

Features: Java, Arduino, Mobile Application Development, Firebase, IFTTT.

Personal Details

- **Permanent Address** **:** Ankushnagar, Tal. Ambad, Dist. Jalna (431212).
- **Date of Birth** **:** 15 Sep 1999
- **Languages** **:** English, Hindi, Marathi
